Springfield, Ill., Sept. 4.-General John M. Notwithstanding the fact that he had travelled since 8 o'clock in ordinary day conches of local trains, with a rest of less than an hour at Decatur, where he ate luncheon and changed cars, the rugged veteran did not betray the slightest trace of fatigue. He jumped from the platform of his car with the agility of a man of fifty and shook every hand that was extended to him with cordial warmth.

Hastily Arranged Reception. The arrangements for the reception had been made in a hurry, owing to the uncertainty that existed until afternoon about the exact time the Senator's train To W. R. A hurried conference of some of the General's personal friends was called by G. H. "As to the nomination of Buckner, I am satisfied that the Republicans will be bene-fited also. Buckner is strong in Kentucky, and his selection will help us there and in other parts of the South."

W. R. Hearst, New York Journal:

The naming of this Indianapolis ticket is going to be a great thing for Bryan. This action will give the "Boltocrats," who are too cowardly to openly join the Republican party and who will not remain in the Demoeratic party, an opportunity to go somewhere.

The people will not pay any attention to these candidates, and I predict that they will not carry a single county in the United States.

Hurts McKinley in Ohio.

Columbus, O., Sept. 4. So far as indications go, the nominations made at Indianapolis will help Mr. Bryan in Ohlo, provided the goldite electoral ticket gets on the Australian ballot. It must receive 10,000 signatures to a petition before it can be placed on the ballot, and there are probably not that number of gold standard Democrats in the State. If the ticket goes on the ballot it will receive a large number, say 5,000 votes, which otherwise would go to McKinley. It will not take a vote from Mr. Bryan, but is more likely to bring both wavering Democrats and Republicans to his support. This is the view taken by Gov-ernor McKiniey's managers, and they are far from pleased because the nominations were made, and consider it as being against his chances to carry his own State. The nominations excite no comment further than ridicule of the bolters,

Employes Were Invited to Attend a Meeting and Were "Asked" to Sign a Constitution Which Had Already Been Drawn Up.

Chicago, Sept. 4.-Some time ago the management of the Rock Island Railroad learned that there was a strong silver sentiment among the employes of the road, and Superintendent Hubbell, of the Chicago terminal, was instructed, it is said, to give the men an object lesson without delay. He accordingly notified sixty-six track men, employed on his divistion, that their services were no longer needed.

Then to show just what consequences would result to the workingmen if Bryan should be elected, he put in the places of the discharged men as many Italians, under a padrone. The men who were dis-charged received from \$1.25 to \$1.50 per day, while the padrone receives 65 cents per day for each of his men, and allows

them 50 cents of this sum. Some of the discharged men drifted into local labor headquarters to-day and talked of their grievances. They said they had not been allowed to join labor organizations and had nothing to do but submit. One of the managers of the McKinley Labor League said when he was told of this object lesson that the league might as well throw up its hands if the employers of workingmen resorted to such tactics to

five having the best scores were alone qualified to enter the second stage, where the shooting was done on the 500 and 600 yard targets. The successful ones were Lieutenant F. C. Wilson and Private Austin, of Georgia; Lieutenant Young, of Company A. Engineer Corps, of the District of Colmubla, and Sergeants Huddleson and Dolan, of the Twelfth New York.

When the five men went to the butts to shoot the final round, excitement was at fever heat. It was expected by the Southerners that Wilson would win, but he shot poorly and retired with only 39, of a total of 86 in the last stage. Dolan tried to make a clean score of 50, but was unsuccessful, and the best he could do was five having the best scores were alone quali-
